

CHANGE THE WAY YOU THINK ABOUT POISON:

CANNABIS FOOD

DID YOU KNOW?

A poison is anything that makes you sick when you eat, breathe or touch it.

Food made with  can be poisonous to children.

Kids can't tell the difference between regular food & food made with cannabis.

THE RISKS:

Kids have smaller bodies & can be more affected by cannabis than an adult.

So how can we help keep kids safe from cannabis?

Clearly label all  food products in your home

Store  food products locked up and out of sight

Keep  food products separate from other food

Clean up any  food waste after use

Keep visitors' bags out of reach of children

Talk to older kids about  & its effects. Visit ** for more info.

Important:

If you know or suspect your child has eaten a cannabis product, call the Manitoba Poison Centre immediately.
